Associate of Science in Pre-Pharmacy

Recommended Full-Time Schedule

The following Recommended Full-Time Schedule is not a substitute for academic advising. You must meet with an academic advisor each semester to be cleared for registration. Consult with your advisor about scheduling and degree requirements. Also, see the current undergraduate catalog (catalog.ws.edu) for a complete list of requirements and electives. Requirements are continually under revision, and there is no guarantee they will not be changed or revoked. Contact the academic division or department for current information.

Factors that affect your progression include required Learning Support courses, completion of computer competency and your choices regarding campus location, course delivery method, and the days and times selected to take classes.

1 General Education electives in each category must be chosen from approved courses listed in the General Education program.
2 Students can use any WSCC transferable course for a general elective. Transferable courses are designated with this symbol ♦ in the course descriptions section of the catalog.
3 Students with ACT Math of 27 or higher can take Math 1910 without a pre-requisite. Students with ACT Math of 26 or lower will need to take MATH 1710 and/or MATH 1720. Math Division will place after testing.
4 Completion of the above courses satisfies requirements for A. S. degree. Additional courses that are typically required prior to entry into most regional pharmacy schools and can be taken at WSCC are: PHYS 2020-21, BIOL 2230/2231, and MATH 1530. Students should consider taking PHYS 2020-21 at WSCC to assure transfer of the entire sequence to the senior institution.
