LIBRARY SCAVENGER HUNT
An interactive, app-based scavenger hunt allows students to get to know the library as a facility as well as the services offered, including where to find the copy machine, how to check out a book or textbook, and who can help with research.

Created for EDUC1030 courses.

RESEARCH INSTRUCTIONAL SESSION
This session is created specifically for your course and your student needs based on your assignment or learning objectives. Students leave ready to do research on their own or with research done, based on time.

RESEARCH WORKSHOP
Usually done in the weeks after a research instructional session, librarians spend the vast majority of class time assisting students with databases/sources and citations. You can schedule as many research workshops as needed. We suggest a research instructional session prior to this.

CITATIONS WORKSHOP
Frustrated by students’ chaotic reference or works cited page? A librarian can lead your students through formatting their paper and/or citations correctly. APA, MLA, and CHICAGO available.

“MEET THE LIBRARIAN” DROP-IN
A librarian can stop by your class to introduce herself as a resource, including how to contact her and how she can help students. Drop-ins take 5-10 minutes.

SMALL GROUP SESSIONS
Group projects that require research may need guidance from a librarian. Librarians can be scheduled (by professors or students) to meet with groups outside of class time.

MAKE YOUR OWN SESSION
If you have an idea of how we can help students with research in your course, we would love to collaborate with you.

Please contact us! We are eager to support you.
